

It's time to
STOP Fires.

Fire Extinguishing Composition

- ▶ Mix Achuk with Water to Fight Large Fires
- ▶ Use with Fire Trucks, Tanks, Pumps, Air Planes, Helicopters, Drones
- ▶ High Temperature Performance up to 1100°C
- ▶ Save Water, Time and Resources
- ▶ Unlimited Shelf Life
- ▶ No Special Storage Requirement
- ▶ Non-Toxic – No Smoke – No Odour

ACHUK is the latest patented, innovative and unique fire extinguishing composition which promises to bring forth a transformation by its ability to eliminate fire swiftly and safely, with NO harmful effects to the environment.

ACHUK eliminates fire, annihilates smoke, is cost effective, versatile and by virtue of being environment friendly, promises to offer an unbeatable sustainable solution in our fight against fire.

Achuk Wet Concentrate (AWC) can fight coal, forest, structure and large high temperature fires with existing firefighting equipment in lesser time and with definite results. AWC reduces water consumption drastically and helps firemen win over fire rapidly.

UNIQUE FEATURES

▶ Simple Use

Just mix with water in 25% or 33% concentration based on type and scale of fire.

▶ Longest Life

Virtually unlimited shelf life.

▶ Highest Performance

Ability to fight high temperatures upto 1100° C.

▶ Triple Action

Instantly cools, cuts off oxygen and covers fuel.

▶ Works Everywhere

Use on horizontal, vertical and ceiling surface fires.

▶ Easily Adaptable

Mix in tanks, fire trucks and dispense even through simple pumps.

▶ Saves Lives

Does not produce smoke or hamper visibility. Retards rekindling of fire.

▶ Achuk Cares

Does not harm environment. Reduces health hazards.

▶ Saves Losses

Reduces collateral damages and economic losses.

▶ Proudly Indian

Achuk Composition - Invented in India and patented globally.

AREAS OF APPLICATION

- ▶ Building & Structure Fires
- ▶ Coal stockpile Fires
- ▶ Fires in Warehouses of Textile, Tyre, Rubber, Foam, Plastic, Paper, Wood
- ▶ Dump Yard Fires
- ▶ Forest Fires
